

Blown Cavity Wall Insulation

System Certificate Holders

SIG Retrofit System Support understands the issues that installing companies face when attempting to source approved installation systems in small quantities. SIG provides end to end support from the supply of systems to training, approval, technical support and product know-how.

“

INTRODUCING SIG RETROFIT

...here to help you become an approved installing company.

”

SIG Retrofit is a support brand to SIG Insulation, focusing on overseeing and managing the supply of SIG's branded insulation systems.

Formed in 2010, SIG Retrofit has been helping installing companies become accredited to install our BBA (British Board of Agrément) approved systems.

In this time, we have forged a reputation for reliability and credibility, growing our installer network nationwide.

Although referred to as SIG Retrofit, our team also supports a network of approved installers in the installation of CWI into the new build market. We can therefore provide you with all the insulation systems you require.

In addition, SIG Insulation's vast product range provides solutions for all your needs in one place and makes SIG Insulation one of the leading distributors in the construction industry.

SPEAK TO SIG RETROFIT

The Experts in Cavity Wall Insulation

At SIG Retrofit we pride ourselves on the high standards of professionalism by making ourselves easily contactable on...

T: 0844 5766 762 E: retrofit@sigplc.com

Our department utilises years of industry knowledge and experience, ensuring that we provide a swift and comprehensive response by connecting you with the most suitable person, business or information, making SIG Retrofit, easy to do business with.

Our unrivalled Technical Support which is underpinned by the most relevant quality certifications and memberships has helped us build our network of approved installing companies. At SIG Retrofit we work with the leading manufacturers and associations to make sure we can be the trusted and reliable supplier of Cavity Wall Insulation material.

WE PUT THE INSTALLING COMPANY FIRST

Whether it is a small quantity or a full lorry load, we can be sure to match your requirements.

Our insulation systems can be delivered exactly where and when you need them, via our fast, flexible and reliable vehicle fleets with purpose built offload facilities where required.

In addition, we can arrange collections from our network of 35 Insulation branches nationwide.

Talk to the SIG Retrofit team to become part of our installer network. Contact us on...
